

# Light Preferences of Mealworms

Name of group members: \_\_\_\_\_

Date: \_\_\_\_\_

**PROBLEM: Do mealworms like the dark or the light?**

**PREDICTION:**

How many mealworms **will be** in the

light \_\_\_\_\_ semi-light \_\_\_\_\_ dark \_\_\_\_\_ after 30 minutes?

**RESULTS:**

How many mealworms **were actually** in the

light \_\_\_\_\_ semi-light \_\_\_\_\_ dark \_\_\_\_\_ after 30 minutes?

## Critical Thinking

1. Were all of the mealworms in one location or in more than one location?
2. Did the other groups get the same results?
3. How much light should you provide to a mealworm?
